

ESPN3.com

An Integra Telecom customer receives access to ESPN3 content as part of their service. To view this content they either have to be at their home on their DSL network, or they have to create an ESPN.com account and sync it with ESPN3 on their home network, this allows them to log into ESPN.com on a remote network and watch the content. ****THIS ONLY WORKS FOR ESPN3 CONTENT****

ESPN3.com redirects to espn.go.com

Note: Integra Telecom customer would only be able to watch the top selection. As the second is an ESPN U.....

To achieve remote access do the following from you home network

In the upper right hand corner click the sign in or register button.

Sign In or Register

Either sign in or go through the procedure to create and ESPN account.

After the account is created go to ESPN.GO.COM and make sure you logged in.

Tom, Activate Insider | Sign Out

Then click on the Remote Access tab and you will see the following.
NOTE: You have to be on your Integra Telecom network.

REMOTE ACCESS

Click on the Sync My Account

Then you should see the confirmation screen. Proceed to watch ESPN3 content
